

# PhillyTechTable.

Connecting Philadelphia's **tech** community, **one table at a time.**

**Mike Dalton** (Dev), **Nate Kanefield** (PM), **Nimish Vadlamudi** (Dev), **Beth Ryan** (UI/UX Designer)

<https://chat.whatsapp.com/E2XxEK1MFdWK56kUHSTPwc>

# Problem Statement

How might we help **Philadelphia's tech community** connect over great food and **authentic** conversation?

<https://chat.whatsapp.com/E2XxEK1MFdWK56kUHSTPwc>

# The deeper idea

The product is really:

**“Micro-gatherings for the tech community.”**

**Not:**

- a restaurant app **X**
- a networking event platform **X**

**But:**

👉 A way to turn **ordinary dinners into community moments.**

**Think:**

- less conference
- more **“a few interesting people around a table.”**

<https://chat.whatsapp.com/E2XxEK1MFdWK56kUHSTPwc>

# What makes it interesting?

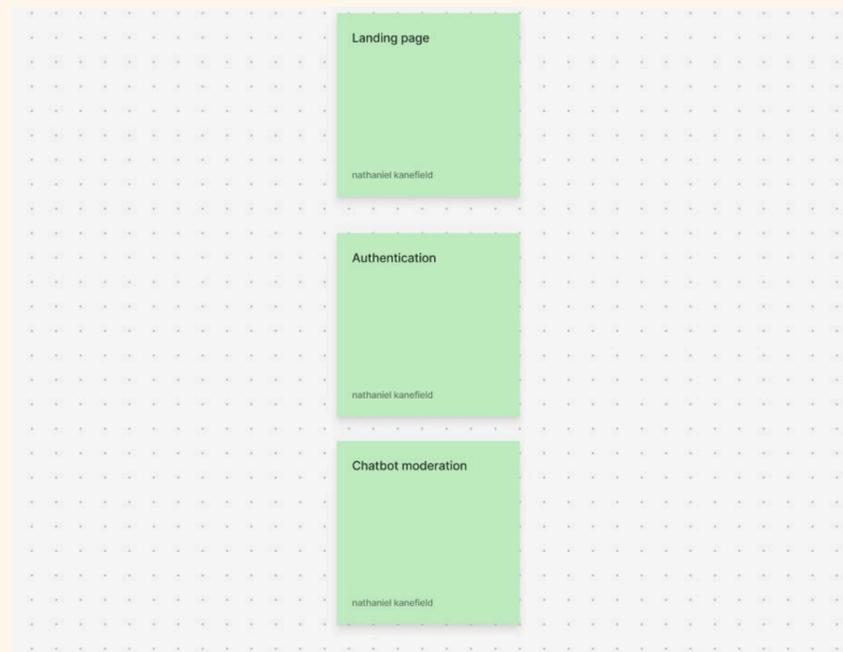

It solves a few real problems:

- **Networking fatigue** — big tech meetups can feel **awkward**.
- **Making new friends in tech** — easier with **4–6** people than 100.
- **Spontaneity** — **not just another event** you have to plan weeks ahead.
- **Low commitment** — just **dinner**.

**Mawn | Cambodian Noodle House with No Rules**

Mawn is a noodle house with no rules. The first restaurant for Chef Phila  
mawnphilly.com

I reserved a table for 4 at Mawn on Thursday! 3 seats left. Who wants to join?

# React meets AI

## Supabase

Easy integration with Supabase

## Lovable

We had product/design iterate on a version in Lovable. Then copy over to React.

## Claude Code

Great at generating React and Supabase Code

<https://chat.whatsapp.com/E2XxEK1MFdWK56kUHSTPwc>

# Supabase as a Backend

## Authentication

Password-based

## Schema Migrations

Useful to keep development and production in sync

Examples

- Referral Codes
- Admins

## Edge Functions

Useful when we need to access something that we can't let all users access

Examples

- Get WhatsApp Link
- Validate Referral

HOW IT WORKS

### Three steps. Zero awkwardness.

- **Sign up**  
Create a free account and tell us a bit about yourself — what you do, what you're into.
- **Claim a seat**  
Browse upcoming dinners at Philly restaurants. Pick one that fits your schedule. Tables seat 5-8.
- **Show up**  
Come hungry, be yourself, meet people who build cool things. Split the check. Leave with new friends.

## We've never been more connected — or more alone.

Slack channels. LinkedIn DMs. Virtual happy hours. We've optimized away the thing that actually builds trust: sitting across from someone, sharing a meal, and talking like humans.
